- **Sanity**
- **Resend**
- **Mailchimp**
- **pnpm**

LANGUAGES

- **Ukrainsk**
- **Dansk**
- **Engelsk**

PROJEKTER

Pizza Hut — Restaurant Ordering Platform

Built a full-stack restaurant ordering platform using Next.js and Sanity CMS. Customers can browse the menu, explore food categories, add items to their cart, and place orders for delivery or pickup. The platform also includes table reservations, newsletter signup, contact forms, and order confirmations.

- **Tech Stack:** Next.js 16, React 19, TypeScript, Tailwind CSS, Formik, Yup, Zustand, Sanity, Supabase, Resend, Mailchimp og pnpm workspaces.
- View Project

Team & Task Management App

Built a web app for managing teams, work schedules, and personal tasks. Users can create, edit, and delete calendar events and team members, filter events by employee, and switch between daily, weekly, and monthly calendar views. The app also includes user authentication, protected routes, form validation, and Supabase for storing data.

- **Tech Stack:** Next.js, React, TypeScript, Tailwind CSS, Schedule-X, Supabase, React Hook Form, Zod, shadcn/ui, JWT, date-fns.
- **Demo login details are available in the README.md file.**
